Dear Sirs:

We currently have a half hour religious broadcast on WTOV-9 Television Station out of Steubenville, OH. On December 29, 2005 I was informed that we must comply with the FCC requirement of close captioning for the hearing impaired by January 1, 2006. We are a Church and rely on the free will offerings of the people to pay all the expenses, including the television broadcast. We do not solicited funds from the television audience nor do we have fund raisers to meet this expense.

First of all it is impossible for us to comply at this short notice. I am sure that you know that it takes time for this to be implemented.

I am requesting that you waive this requirement for our program for the following reason.

We presently broadcast 52 programs a year for a total cost of \$68,788.85 per year, of which all the funds are received from the free will offerings of our congregation. To include closed caption, the cost would increase our television program expense anywhere from \$125.00 - \$250.00 per show, which would make the total cost of our program \$75,288.85 - \$81,788.85 per year.

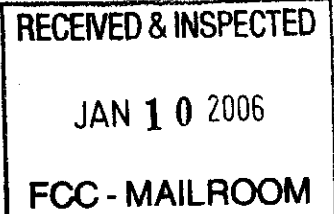

If we are required to add this additional expense, we will probably have to discontinue our program. Our people would not be able to incur the additional expense.

I have included two proposals to add closed captioning to our program.

Sincerely,

Charles A. Cirelli

FCC - MAILROOM

Good afternoon Chuck,

I first want to thank you for calling; it was a pleasure speaking with you. It's funny how we're getting all these calls now regarding this new FCC regulation starting January 1st..it's really putting people in a bind...and you're right..it's definitely making people think twice about there show...sad to say

You mentioned that you have a 30:00 Weekly Religious show and are interested in Roll up Closed Captioning (CC) with your final output to DVPRO.

The price for your weekly 30:00 CC show breaks down as follows:

30:00 Roll-Up Closed-Captioning

Encoding onto DVPRO

DVPRO NTSC CC master

Total for all the above - \$250.00 per 30:00 show

Once we've finished with the CC and the creation of the DVPRO, we would send back your original master and a new DVPRO that's been encoded with CC. Chuck, this is a wonderful price. I don't think you'll find a better price anywhere.

Please get back with me at your earliest convenience. We can get the ball rolling at anytime.

Thank you again for giving up the opportunity to submit this proposal.

With warmest regards and HAPPY NEW YEAR
